The French clown, Mons. O'Gust, from the Folies Begere, Paris, is a most unique imitator. His work is unlike anything seen in the ordinary shows. The audience was loath to give up the little Frenchman and called him back for seven encores. He has learned the lanuage of every domestic animal, and one fter another is imitated in song or story, the whole being completed with a polka in which the different animals and most of the instruments in the orchestra are mimicked, all in tune and with a decidedly pleasing musical effect. O'Gust is a musical genius as well as a clown.

In spite of the heavy counter attractions, Helene Mora sang to another large and enthusiastic audience at the Grand last night. Mora's friends seem to be largely in the galleries; at least there is where the most noise comes from after one of her songs. She is a revelation to those in the pit who never heard her in the variety shows. Many do not seem to know exactly how to take her. For the benefit of these it may be said the Mora craze is not a matter of cultivation. This woman with phenomenal voice is exactly what she tends—a ballad singer of the old school, where earnestness appeals to an audience like a display of the stars and stripes in a melodrama climax. The gallery and those who are not too blaze to be moved by wholesome sentiment are the ones who herald the praises of Mora. Her engagement closes with two performances to-

THE TRUE BLUE HERE

REPUBLICANS GATHER FOR THE AN NUAL STATE CONFERENCE.

Candidates and Their Friends Here in Large Numbers-Plenty of Confidence for the Coming Work.

A sweeping Republican victory in 1896 was in the atmosphere about the Denison Hotel corridors last evening. A large body of Republicans, whose number was estimated anywhere from one hundred to three hundred, assembled on the eve of the great love feast to be held to-day. Never was there a better attended and more enthusiastic gathering, and the meeting and greeting of last evening was suggestive of the eve of a State convention. Leading Republicans were present from all parts of the State. The recent victories were considered, the nominations to be made by the party six months hence were much discussed and the size of the victory next year was estimated. All present expressed the opinion that next year the Republicans will be continued as masters of the State, and all that remains now is to perfect the organization and get a ticket in the field. The meeting of the representative Republicans will be called to order this afternoon at 1:30 o'clock in the rooms of the Republican Traveling Men's Club, in Pearson's

Hall, opposite the Denison. Col. Richard W. Thompson, of Terre Haute, the veteran Republican, will probably act as chairman of the meeting, his name being the only one mentioned last evening. The Republican leaders come to Indianapolis simply for the purpose of getting acquainted, renewing old acquaintances and considering the prospects of the party. The avowed candidates for different positions and offices are consequently receiving much attention. It is a "love feast," or "powwow," or "jubilee" of Republican leaders, and last night candidates whom

the Democratic papers have referred to as

"deadly enemies" chatted and talked to-gether, all interested in the success of the Probably the most respected personage in the corridor was Col. Richard W. nearly ninety years of age, continues to show a great interest in the welfare of the State, and consequently the success of law." I wanted to correct his history then the Republican party. Colonel Thompson and there, but the surging of the crowd stood most of the evening, apparently as easily and with as little show of fatigue | sion to do so in the Journal. as many a younger man. He smoked a cigar slowly and deliberately, and enter-tained the large crowd which was around him all of the evening. Colonel Thompson said to all those who inquired that in his inion General Harrison will be the candate of the party in 1896, and he believed he should be nominated. Charles W. Fairbanks, of this city, and W. R. McKeen, of Terre Haute, were prominent figures in the corridors, for both are known candidates for the United States Senate. Quite a delegation came here with Mr. McKeen, in which was Colonel Thompson. There seems doubt but that when the Legislature meets again a Republican successor to Sen-ator Voorhees will be chosen, and Mr. Fairbanks and Mr. McKeen seized the opportunity last evening to get better ac

uainted with the men whose political inence is a thing to be sought. It would have been impossible to have cast a stone, last evening, in the neighborhood of the Denison, without striking a candidate for Governor or a particular friend of some candidate. The friends of a particular candidate were very cautious in addressing another visitor, for "the other Republican," in nine cases out of ten, was a particular friend of some other candidate. There was no ind. cation of any "fights," as the meeting of the urpose of talking over the situation. The present State officers figured in the consideration of candidates. Secretary of State Owen was in the corridor, not as an avowed candidate for Governor, although he was nerally regarded as such. ar. Owen, as a ent indications, have little opposition. He is not a candidate for the gubernatorial nomination, so he states. Mr. Owen lives at Logansport. Alexander Hess, Clerk of the Supreme Court, who was elected for a term of four years, lives at Wabash. Warren G. Sayre, also of Wabash, is an active candidate for Governor. Major George W. Steele, of Marion, is mentioned frequently as a candidate for Governor, although he has not an-nounced himself. Leopold Levy of Hunting-ton, is a candidate for Treasurer. All of these gentlemen being from the Eleventh district, makes matters there somewhat omplicated and last evening there was conderable speculation concerning what might weights, closing with the act of support-ing two horses and a pony on a platform that rests on his chest. The combined

candidate and an active one, and W. Durbin, of Anderson, is also in the field for the place on the ticket. Mr. Sholz is from Evansville, and Frank B. Posey, of the same place, is making a canvass for the first nomination on the ticket. No opposition to State Auditor Daily was heard last evening, neither was any heard to Attorney-general Ketcham.

Among the representative men of the party were seen last night the following announced candidates for Governor: John L. Griffiths, of this city; Warren G. Sayre, Wabash; Major Charles T. Doxey, of Anderson; Hon. Will Cumback, of Greensburg; Theodore Shockney, of Union City, and Charles A. Everitt, of Fort Wayne. Other names frequently heard were those of Frank A. Posey, of Evansville; Charles F. Griffin, of Hammond, and Smiley N. Chambers, of Indianapolis. All of these nine gentlemen were referred to as avowed candidates. Other names heard were Congressman Charles Henry, of Anderson; Congressman Henry U. Johnson, of Richmond; Secretary of State Owen, and Congressman George W. Steele, of Marion. The candidates for Lieutenant Governor are mentioned are: State Senator L. Newby, of Knightstown; State Senator W. S. Haggard, of Lafayette; Col. A. C. Voris, of Bedford, and A. C. Baker, of Marion. One of the chief topics of conversation is concerning the selection of a State committee chairman two months hence. It was evident last night that Mr. Gowdy, the present chairman, will have some opposition for re-election. E. H. Nebeker, of Covington, is alone heard as an opposing candidate. There will probably be a number of changes, in the composition of the State committee. The following are the andidates from whom the committee

But one advocate of silver was found around the corridor, and he was Hon.

A.Case of Misinformation. To the Editor of the Indianapolis Journal: This afternoon, while shaking hands with some of the old guard in the corridors of the Denison, my attention was attracted to the conversation of a group of young men, say from thirty to forty years of age, who had come to the Republican love feast. There was an air of push and resolution about them which seemed to say: "We know all about it, and propose to have a hand in it," which I greatly admire. They were hardly old enough to be prospective candidates for Governor or the United States Senate, but there is no knowing. Some people mature early. The spokesman was just saying: "I am opposed to putting anything in the platform about the Nicholson law," and I was about to take him by the hand and say, "Give us your hand on that," when he added: "The Baxter law defeated Thompson, of Terre Haute, who, although the Republican party in 1874, and I don't want it to be defeated now by the Nicholson

The Baxter law had nothing in the world to do with the defeat of the Republicans in 1874—positively not a thing, though many at the time so charged. That law was strictly a nonpartisan law, being voted for and voted against in both houses by both Republicans and Democrats, and approved by a Democratic Governor. When the conventions of 1874 were assembled the saloons asked each to repudiate it. The Democrats consented, but the Republicans refused, and instead, at the solicitation of many temperance men, declared in avor of local option the Baxter law, though a large number of temperance men desired to have nothing said on the subject, believing then, as many believe now, that no party should godfather the cause. Had the good citizen movement been in as good working order then as now there is little doubt that, even with the Democratic party opposed to the law, a Legislature could have been elected that would have improved instead of repealing it, had not the Republican party adopted it as its bantling, for abhorrence of the saloon then, as now, was not confined to any

one party.

Nothing on earth could have saved the Republican party in Indiana that year. It was a year of political landslides. It would no be difficult to state why the slide that ye, r was against the Republicans. It is enough for my purpose to show that the Baxter law had noming at all to do with it. True, Grant's majority in Indiana in 1873 had been 22.515, but no sane man at the believed there were half that many more Republicans in the State than Democrats. The Democrats simply would not vote for Mr. Greeley, preferring to vote for General Grant or not to vote at all. In 1874 they all voted, and a thousand Republicans who did not get office stampeded and went with them, giving a Democratic plurality o 17,252. That the Baxter law had nothing in the world to do with this result, take the following figures from a few other States, showing substantially the same results from the same causes. In 1872 Ohio gave Grant a majority of 27,531, but in 1874 the Democrats carried the State by 17,202—a greater change than occurred in Indiana, and there was no Baxter law issue there. Our neighbor on the west, Illinois, gave Grant in 1872 a majority of 57,006, but in 1874 it gave a majority of only 34,851, and there was no Baxter law issue there, either. The causes which affected these three contiguous Western States were even more potent in the East. In New York, in 1872, Grant's majority was 53,480, but in 1874 the Democrats carried the State by 50,317, a change in two years of 103,898, and there was no Baxter law issue there, eitner. In Pennsylvania, in 1872, Grant's majority was 137,294, yet in 1874 the Democrats carried the State by 4,679, making a change of 141,973, and again there was no Baxter law to cause this.

My young friend was too young then to notice these things. He was hardly a voter, but he has heard so much about what the Baxter law did against the Republican party that he has taken it all for granted. No; the boot is on the other foot. In the touching language of Hudibras-

"The man recovered from the bite, It was the dog that died." That adultrous cohabitation, that joining together what could have no affinity, proved fatal, but not only to the Baxter law, but to all temperance legislation from that day to this, if not for a generation yet to come. It made the saloonists' law of 1875 possible and the Nicholson law is only a supplemental law to that. It is neither a Repubublican party has no right to godfather it The Good Citizens' League asks nothing of the kind, and will consent to nothing of the kind. They do not even ask a formal pledge to enforce it. They propose to see that men be elected whose records will need no such pledge. Their demand is, hands off! Indianapolis, Nov. 19.

GAS COMPANIES CANNOT GO ABOVE ORDINANCE RATES.

Judge Jordan Renders an Opinion That Is Important to Gas Consumers-Other Court News.

In an opinion handed down by the Supreme Court yesterday it is held that natural gas companies cannot increase the rate to consumers above the maxifum price fixed by the ordinance accepted by the company. The decision of the Supreme Court affects the case of the Westfield Gas and Milling Company against Denny J. Mendenhall and other citizens of Westfield. The Westfield company, in May, 1894, notified its patrons that the rate for cooking stoves would be increased from 80 cents to \$1 a month. The consumers went into court and had the company enjoined from increasing the rate of gas. Judge Jordan, who wrote the opinion, holds that the services rendered by a gas company having a franchise granted by the State are of a public nature and the company owes a duty to the State. When it binds itself to discharge a certain obligation the law will enforce that obligation.

"DANBURY" IN LITIGATION.

Hat Company of That Name Objects to Its Use by a Rival Concern. The Danbury Hat Company, doing business at No. 8 East Washington street, began an action yesterday against William E. Kleinsmith, Alonzo Hendrickson and Charles W. Lefler, the members of a hat firm located at No. 23 West Washington street. The suit is to enjoin the defendants from advertising a particular style of hats. The Danbury Hat Company formerly occupied the room now being used by the defendants. Kleinsmith, it is alleged, was in the employ of the Danbury Hat Company and familiarized himself with their trade. The complaint charges that when the plaintiff removed to its present quarters last August Kleinsmith, with the de-fendants, Hendrickson and Lefler, leased the vacated room and started in business at the expiration of the plaintiff's tenancy. The defendants, it is averred, swung from the upper windows of the building this The defendants, it is averred, swung from the upper windows of the building this flaring sign: "The lower floor of this building will be occupied by the Original Danbury Hat Store." in the sum of \$5,000.

The first proceedings under the legislative act of 1895, defining fraudulent marriages, were brought to the notice of the Circuit Court yesterday. Sept. 15, 1895, Emma Palmer brought a paternity suit in one of the justice courts against Ellis Sanders. On the day that suit was filed Sanders entered into an arrangement with the girl by which he was to marry her and the suit would be dismissed. The contract was carried out and the plaintiff became Mrs. Sanders. The defendant, however, refused to live with her and a few hours after the marriage she found her-self a deserted wife. The last Legislature enacted a law to the effect that any defendant in a paternity suit, who fraudulentwho has been wronged for the purpose of avoiding prosecution and who within two years shall abandon his wife or shall in any manner mistreat her, shall be liable to an action for the recovery of a penalty which shall not be less than \$200. Yesterday Mrs. Sanders procured a warrant for the arrest of her husband under this statute. Sanders was brought into court by the sheriff. His attorneys were not ready for trial and Judge Brown granted a continuance for a week. Sanders furnished a bond of \$500 for his appear-

ance in this court. For Robbing a Pensioner. Edward Lindley is on trial before a jury in the Criminal Court charged with robbing Oran Williamson, a veteran soldier. The robbery occurred last August. Williamson was spending his pension money freely among the saloons and Lindley was in the crowd which enjoyed the old man's hospitality. Williamson went to his room, at No. 177 East Washington street, and was followed there, it is charged, by Lindley. Later the latter appeared with considerable money in his possession and was arrested. Lindley was tried some time ago for complicity in a deed forgery, but

the jury disagreed. He is still under indictment in that case. Saloonist Buschman Under Bond. WINTER WHEAT MILLERS WANT RECIPROCITY RESTORED.

Meeting of Executive Committee in This City-American Shipments of Flour Have Suffered.

The executive committee of the Winter Wheat Millers' League held a meeting at the Grand Hotel yesterday morning. The league is an organization composed of the leading millers of the States of Ohio, Indiana, Michigan, Kentucky, Illinois and Tennessee. The main purpose of the organization of the league is the extension of the milling interests. Mr. E. Perry, of thi city, is the secretary. Mr. M. H. Davis, of Shelby, O., is the president. Among the members of the executive committee in attendance yesterday were President Davis and Secretary Perry; W. A. Coombs, of Coldwater, Mich.; J. N. Miles, of Frankfort, Ky.; C. L. Cutter and Thomas A. Taylor, of Toledo, O. Mr. Arthur Gillette, of this city, was also present. From the State at large were present R. P. Moore, of Princeton; M. S. Blish, of Seymour, and C. Loughry, of Monticello. All these gentlemen are widely known in milling circles. During the day routine business was considered. In the afternoon the special object for which the meeting was called was discussed. Yesterday afternoon President Davis said: "The league was formed for the purpose of extending abroad trade in American flour. It is necessary to secure legislation by Congress on the line of reciprocity before any material extension of trade abroad can be effected. It is to discuss ways and means looking to this end that the committee is in session to-day." During the afternoon many plans were considered for the furtherance of this ob ject. It was decided to have Mr. Davis, the president of the league, go to Washington for the purpose of trying to induce Congress to take some action for the relief of the milling interests. It was thought best to leave Mr. Davis unhampered with instructions. He is authorized to take such action in Washington as occasion may de

After the meeting adjourned Mr. Davis, object we have in view is the McKinley bill, which was repealed by the passage of the Wilson bill, or the enactment of some similar measure. "Were the milling interests much affected by the repeal of the reciprocity clause?"
"Yes, indeed," he replied. "Our trade

with other countries was cut off to the ex-tent of several millions of barrels of flour annually. In the case of Cuba alone shipments are nearly a million barrels less. This is a matter of vital interest to us, and we intend to do everything we can to have reciprocity restored." These statements were made in the presence of other members of the committee, who assented to everything said. Mr. Davis and other members of the committee departed for their homes last night. Mr. Davis will go to Washington this winter. where a vigorous campaign will be inaugurated for the restoration of the reciproci ty clause of the McKinley bill.

In some conditions gain from the use of Scott's Emulsion of cod-liver oil is rapid. For this reason we put up a 5oc. size, which is enough for an ordinary cough or cold or useful as a trial for babies and children.

In other conditions gain must be slow, sometimes almost imperceptible, health can't be built up in a day. For this Scott's Emulsion must be taken as nourishment, food rather than medicine, food prepared for tired and weak digestions.
